## CHM 111: College Chemistry I

This is the first course in a two-semester sequence designed for the science or engineering major who is expected to have a strong background in mathematics. Topics in this course include measurement, nomenclature, stoichiometry, atomic structure, mole calculations, chemical equations, acids and bases, polarity, acid-base theory, equations and reactions, basic concepts of thermochemistry, chemical and physical properties, bonding, molecular structure, kinetic molecular theory, condensed matter, solutions, and some descriptive chemistry topics. Laboratory is required. **Credits:** 4
