

CNC 162: Precision Grinding

This course includes more advanced precision grinder practices such as set-up procedures, work planning, surface and cylindrical tool and cutter grinding operations, and inspection and process improvement. Additional emphasis is placed on safety procedures. Upon completion, students will be able to apply advanced precision grinding techniques.

Credits: 3

Transfer Code: Code C

Lab Hours: 1

Lecture Hours: 2

Program: Computerized Numerical Control

Semester Offered:

Fall

Spring

Summer
