

MAT 205: Clinical Specialties for Medical Assistants

This course will build upon previous knowledge and skills in the clinical practice setting with advanced topics which include but are not limited to assisting with specialty examinations, vital signs, client teaching, and components of the medical records to include formats, types, and documentation. This course also includes management and response to medical office emergencies. Upon completion, students should be able to recognize and manage specific emergencies in the office setting and assist with specialty procedures. CORE
