

RPT 264: Respiratory Care Practitioner Update

This course is designed to present recent developments in the field of respiratory care in a seminar format for both students and practitioners. Course emphasis is placed upon continuing professional education and content includes new or emerging technology and techniques as they are developed. Upon completion, students or practitioners should be able to demonstrate acquired cognitive abilities concerning the topic of emphasis and upon successful completion of the final examination a certificate would be issued describing the topics presented. As needed.
