

WDT 141: Aluminum Fabrication Methods

This course allows the student to plan, execute, and present results of fabrication processes using aluminum material. Emphasis is placed on enhancing skill attainment in the aluminum fabrication field. The student will be able to demonstrate and apply competencies identified and agreed upon between the student and instructor.

Credits: 3

Lab Hours: 6

Lecture Hours: 0

Prerequisites:

As required by college.

Program: [Welding/Robotic Welding](#)
