# ILT 175: Computer Fundamentals for Technology Students

This course introduces the students to applications of computers in the laboratory setting. It will cover the computer from a hardware standpoint and introduce the operating system. Application software will include word processing, spreadsheets, datebase managers, and other electronic related software. Upon completion, students should be able to operate a personal computer in the technical setting.

**Credits:** 3
**Transfer Code:** Code C
**Lab Hours:** 0
**Lecture Hours:** 3
**Prerequisites:**
As required by college.
**Program:** Mechatronics, Electronics & Robotics
**Semester Offered:**
Fall
Spring
Summer
