

Pathways

Wallace State was one of 30 community colleges in the U.S. selected by the American Association of Community Colleges to participate in the Pathways Project, funded by the Bill and Melinda Gates Foundation. The Pathways Project involves a rethinking and redesign of the student experience from enrollment through completion. Through Pathways, students will have less pressure at the outset to choose a major; rather, they will identify the pathway – Liberal Arts/General Studies, Applied Technologies, STEM (Science, Technology, Engineering and Math), or Health Science – which best aligns with their strengths and interests. The coursework taken early in their college study will be applicable to any major within the pathway. Later, when they have had a chance to do career exploration in the new GPS Freshman Seminar and have begun to build an e-portfolio, then they will have a better notion of a well-suited major, at the right time for more specialized courses. Pathways is designed to streamline the path to completion, improve success, and reduce wasted time spent changing majors. Students are encouraged contact their advisor to learn more.

LIBERAL ARTS/GENERAL STUDIES PROGRAMS

- Art/Graphic Art & Design
- Business Administration
- Business Education & Office Administration
- Business Management & Supervision
- Criminal Justice
- Dance
- Forensic Psychology
- General Studies/Liberal Arts
- Global Studies
- Music Education
- Paralegal
- Pre-Education
- Religious Studies

APPLIED TECHNOLOGIES PROGRAMS

- Advanced Automotive Technology
- Agriculture Production/Horticulture
- Aviation/Flight Technology: Helicopter and Fixed Wing
- Building Construction
- Collision Repair
- Culinary Arts
- Diesel Technology
- HVAC & Refrigeration
- Machine Tool Technology
- Mechatronics, Electronics & Robotics
- Salon and Spa Management
- Small Farmer Training
- Tool & Die Technology
- Welding

HEALTH SCIENCE PROGRAMS

- Child Development
- Dental Assisting

Dental Hygiene
Diagnostic Imaging
Diagnostic Medical Sonography
Emergency Medical Services
Health Information Technology
Medical Assistant
Medical Laboratory Technician
Nursing
Occupational Therapy Assistant
Pharmacy Technology
Physical Therapist Assistant
Polysomnography Technologist (Sleep Study)
Respiratory Therapy
Sports Medicine

STEM PROGRAMS

Computer Science
Engineering Technology
Geospatial Technology
Mathematics
Poultry Science (2+2)
Pre-Engineering
Sciences

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at <http://www.wallacestate.edu> and click on the desired program.
